Assessment of Exemplar

Compare the exemplar to your completed activity template. Review your results with those in the exemplar. What did you do well? Where can you improve? Use your answers to these questions to guide you as you continue to progress through the course.

Decisions that differ from exemplar results

If any of the decisions in your activity template don’t match the decisions in the exemplar, think about why you made a different decision. Did you omit a certain part of the analysis that the exemplar included? Did you bring in additional information that the exemplar didn’t consider?

Note: The decisions shown in the exemplar are the best decisions for the given scenario. In real life, however, sometimes different decisions are equally valid. When your decisions are supported by data, you can be confident standing behind them. Likewise, you can feel comfortable changing your mind to support a different decision if someone presents convincing data to do so.

Mark as completed
